Dimple assists lawyers on a wide range of corporate, commercial, and dispute resolution matters. She supports the corporate team with the formation of new companies in the UAE, maintenance of existing companies, liaising with government departments, and police departments, drafting memoranda, and conducting research. She also assists the dispute resolution team in legal research, document classification, and document management.

Prior to joining Afridi & Angell, Dimple worked for eminent legal and knowledge services companies in India where her work involved extensive research and analysis of patents with varying scopes, such as patentability, infringement, and licensing for various multinationals. She has worked in various cross-functional technology domains such as pharmaceuticals, petrochemicals, electronics and mechanical patents.
